

Simply the best GPS control for Turf!

- Easily adaptable to any sprayer
- Large 16" Touch screen w/built in modem, water resistant, easy to see in sunlight, rugged
- GPS driven control for rate and individual nozzle control for 20" or 10" spacing
- Complete with 1st year subscriptions to RTK differential, modem to connect to the internet and Agfiniti software to see your sprayers, add and modify prescription maps
- Optional turn compensation control to actually control the output of each nozzle as you turn
- Optional self steering for hands off steering on long runs like fairways, will even do the turn at the end if you prefer.
- 2 year warranty with remote on screen service
